Chairman of League Stanislaus to Distribute Christmas Baskets

For many years past it has been the custom of Stanislaus to entertain the underprivileged children of Hancock County with a Christmas tree and distribution of toys. This practice was started many years ago by the late Brother Peter, and continued after his death, each year until the present time.

However, this year, the Brothers have decided that since the weather is usually bad at this time of the year, and many cannot attend, that Christmas baskets will be distributed on Christmas Eve, by their local boys to more than one hundred needy families.

If you have been a regular contributor to the Christmas Tree fund in the past, you may still hold this worthy cause by sending in your contribution to the Christmas basket fund.

Christmas is a time of giving and if you feel that you want to do something to make a less fortunate person happier at this glorious season of the year, help out on any of the other projects being put on by various organizations throughout Hancock County to further spread this wonderful feeling.

FUN FOLLIES AT BAY HIGH SCHOOL THIS FRIDAY NIGHT

The "Cracker Jack Follies of '51-52" is coming to the Bay High Auditorium Friday, December 14, at 8 P. M. It is featuring the "Gypsy" and the "Hines Chatterboxes," an all star cast of twenty five. Bay St. Louis' own Miss Manier, twirling her usual grand fashion will be on the program.

"Gypsy" Campbell is well known on the Coast and should need no introduction to the people of Bay St. Louis. He was brought up under the tents of Barnum and Bailey Circus and has performed in the Times Picayune Magazine section on a story about the "Gypsy."

It is hoped that this will be the only money making project for the P. T. A. for the year, as everyone in Bay St. Louis should come out for a night's entertainment and benefit a good cause. Admission is 40c for students and 75c for adults. High school girls selling tickets are: Mildred Adams, Sue Smith, Rosemary Vaughan, Mary Lou Scianna, Barbara Ann Burrows, Mary Palmer, Clara Kay Miller, Clara Fuchén, Pansy Parker and Evelyn Hoda.

ROTARY CLUB HAS REGULAR WEEKLY LUNCHEON MEETING

The Rotary Club of Bay St. Louis had its regular weekly meeting at the Hotel Reed on Wednesday, December 12th.

Visiting Rotarians were Dr. Emmett L. Irwin of New Orleans, C. O. Underwood of Picayune, Bob Allen of Pass Christian and Eugene Harpole of Gulfport. Mr. Robert Flemings of Jackson, Miss., was the guest of Mr. H. H. Shattuck.

A new Rotarian, Dr. George Battalora, was then recognized.

The attendance prize, given by Mr. Dick Shadoin, was won by Mr. Howard LeTissier.

The "Lucky Handshake" prize was won by Mr. Rene deMontoux.

President R. H. Hamilton reminded the members of the Christmas Party which will take place next Thursday night, from 7 until 10 o'clock instead of the usual weekly luncheon. The social hour will be held from 7 until 8 and dinner will be served from 8 until 9. Old Santa Claus will be there in person to distribute the gifts.

The meeting was then turned over to Dr. James Evans, Program Chairman, who introduced the speaker of the day, Reverend L. Clarke, a Rotarian, from Pass Christian, Miss.

Reverend Clarke opened his interesting, informative talk on "Classification" by saying that he was very happy to be present for the first time he had been invited to speak before the Rotarians the hurricane of 1947 had cancelled his engagement; the next time he came over the business of the meeting had taken up so much time that the president had not been able to call upon him for his speech and the third time the bridge had burned down.

Reverend Clarke who has been a Rotarian for many years; having served as president of his own Club in 1921, then traced the formation of the Rotary Club by its originator, Paul Harris in Chicago. He said that Rotary had as its motto "Serve Beyond Self"; that later it had added to its slogan, "He Who Serves Best Will Profit Most." That the real reason for the formation of the Rotary Club was a band of group of professional and business men together; choosing for each classification a man with the best qualifications. Since this was done and only one man had been allowed in each qualification and they had proved that their "word was their bond"; that they gave better service. The formation of the Club was such a success; that many people wanted to join it but had not been able to do so because one of their kind already belonged; they then formed the Kiwanis and Lions Clubs. The idea and principles of Rotary have grown so that there are now over 7,000 clubs throughout the world.

In the last year, 52 clubs have been established in 23 new countries; Japan alone had 66 active new clubs; 57 of these clubs reporting perfect attendance.

Rotary was established upon a high plan of conduct; a man was in Rotary first because of the services he could render. The first requisite for a new member is character and the second what the man could contribute to the betterment of Rotary and his fellowman.

Reverend Clarke was thanked for his most interesting talk.

Before adjourning, President Hamilton informed the Rotarians that they had Mrs. Wilson Webre to thank for the delicious doughnuts.

SHRUBS PLANTED AROUND MONUMENT

We stopped and looked at Forter Commager's monument on the grounds surrounding the Courthouse during the past week and were delighted to see that shrubs, azaleas, camellias, etc., had recently been planted around this monument dedicated to Forter Commager. Inquiring around, we were informed that the plants had been donated by some of his old friends. That made us feel mighty good for it brought back memories of what a grand fellow Forter was; how he did everything he could to help his fellow man.

In writing the above we realize that we have definitely turned to the meek, low, soft, emotional side. We meant to convey the thought that even though Forter is gone; that good will and happy memories are still cherished by his old friends; that they must have realized how dreary and forlorn that monument appeared to the passer-by. They did those things possible to make it look cared for—planted shrubs to give it color and warmth. They said in action what they could not say in words to the man they loved; "See, you are gone but you will never be forgotten; you still have friends who care."

On the subcommittee are representatives from the National Council of Farmers' Cooperatives, the Association of Land Grant Colleges and Universities and various Protestant and Catholic church groups interested in the welfare of rural life. The Farm Bureau was invited to send a representative, but it declined, explaining that while it was in sympathy with the declared purpose of the survey, it believed suggestions for program changes and improvements should come from farmers through their own private organizations rather than through an administrative agency of the government. Secretary Brannan has said that if any recommendations for new legislation are made as a result of the survey, he will offer them as his own and not as those of farmers.

IRRIGATION VALUE STRESSED AT MEET

State College, Miss. — The value of irrigation was stressed by John Campbell, superintendent of the Truck Crops Branch Experiment Station at Crystal Springs, where irrigation has increased income from tomatoes by \$157 per acre and snap beans as much as \$268 per acre.

Campbell spoke at the Friday session of the annual meeting of the staffs of the Experiment Station at State College and of the nine Branch Experiment Stations throughout the state.

Irrigation research on corn was reported on by Howard V. Jordan of State College; on rice by Dr. D. Gray Milley of Stoneville; of pastures, by Dr. H. W. Bennett of State College, and of cotton, by R. L. Dickerson of State College.

Trivial matters can prove fatal when not kept in perspective.

U. S. NEEDS MORE FOOD TO LEAD NATION

1952 Spring Yield Goals Set At Record High

Washington, — Uncle Sam this week asked United States farmers to produce their largest crop in history next year...

The government said more food to feed the growing population, to take care of military needs and help American friends overseas...

The key to next year's production will be a new high in livestock output...

Stumbling blocks for farmers to hurdle are shortages of labor, machinery and fertilizer...

The government encouraged farmers to grow more by guaranteeing them prices at 90 per cent of parity on nearly all crops...

The mid-November parity figure was
